

Making powerful connections between primary literacy and science

Encouraging children to communicate science ideas, knowledge and understanding develops their literacy skills. Planning lessons which maximise these opportunities will develop literacy skills and improve attainment in science.

The course

Explore the curriculum links between science and literacy and consider a range of strategies designed to improve children's ability to use scientific language.

Outcomes

You'll gain an awareness of the nature and breadth of opportunities for linking science and literacy and be able to develop strategies for doing this. This will help to raise attainment in science and will help you to identify progression in science and literacy.

"I feel confident that I am able to identify further opportunities for linking science with numeracy and literacy."

Anita Warren, 2016 participant

Date: 13 February 2018 (13:30 – 16:00)

Location: Polesworth (Abbey) Scout Activity and Community Centre,
Pooley Country Park, Pooley Lane, Polesworth, B78 1JA

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.

National STEM Learning
Centre and Network

RECOGNITION

Our recognition schemes and awards allow you, your department and school to showcase the impact you have on your students and colleagues.

RESOURCES

We have over 38,000 quality, STEM teaching resources, available online or at our centre. You can also browse teacher-made resources and submit your own.

STEM Learning operates the National STEM Learning Centre and Network, alongside other projects supporting STEM education
